

Utah Medicaid

Dental care update: for children and pregnant or postpartum women

Starting on July 1, 2026, children and pregnant or postpartum women enrolled in Medicaid will no longer use MCNA Dental or Premier Access to receive dental services.

Members will need to go to a dentist on the **Medicaid dental provider list**. There are dentists all over the state they can go to.

To find a dentist, members can:

Call 1-866-608-9422 and talk to a Medicaid Health Program Representative.

Visit <https://medicaid.utah.gov/uusod> or use this QR code to find the Medicaid dental provider list.
